

EnemyObserver

```
graph TD; EO[EnemyObserver] -- 1 --> AI[AI];
```

A UML class diagram showing a directed association between two classes. The class 'EnemyObserver' is represented by a light blue rectangle with a thick black border. The class 'AI' is represented by a light blue rectangle with a red border. A blue arrow points from 'EnemyObserver' to 'AI', with a blue '1' indicating the multiplicity at the 'AI' end.
